Fig. 6 must be briefly described after the last line on page 2.

In the "abstract", last line, "portably" must be changed to "--portable--"; and the line after that must be deleted.

Claims 3, 9 are objected to, as it is not clear what is (and what is not) a "foam-type" material.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4, 7-10 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Hall or Miller.

Jaffe et al (note Fig. 1), Chou (note col. 2, lines 14, 15), Browder (note Fig. 4), Geddings (note Fig. 3) and French et al, are cited as relevant art.
